

ACS-2

OEM PRODUCT

The ACS-2 Anesthesia Circle Absorber is a high-performance carbon dioxide absorption system engineered for seamless integration across clinical workflows. Designed for universal compatibility, the ACS-2 connects effortlessly with the AVS-270-WS anesthesia ventilator. Integrated with an internal permanent flow sensor, the ACS-2 provides accurate, continuous flow monitoring to optimize gas delivery and ventilation accuracy. Featuring an intuitive Bag/Vent switch for rapid transition between manual and mechanical ventilation, it also integrates a dedicated Canister Bypass option that allows clinicians to safely replace absorbent granules during active procedures without compromising circuit integrity or pressure. Durable, efficient, and versatile, the ACS-2 ensures reliable gas conditioning and patient safety in demanding surgical environments.

Specification

PARAMETERS	ACS 2
Flow Sensor	Internal & Permanent
Bag/Vent	Yes
Canister Bypass	Yes
APL Valve	Yes
Manometer	Yes
Soda lime	1250 ml
Oxygen Sensor Port	Yes
Ventilator Suitable	AVS-270-WS
